INTN-4910 and the Five Dimensions of the SLU Experience: Reflective of its mission, Saint Louis University strives to engage its students in five interrelated dimensions contributing to the development of the whole person: 1) scholarship and knowledge, 2) intellectual inquiry and communication, 3) community building, 4) leadership and service, and 5) spirituality and values. The internship provides opportunity for student growth in each of these dimensions. Through their active participation in the workplace, students will gain knowledge of both a professional environment and valuable, practical work experience. They build on their existing communication abilities and learn a new skill set appropriate for office dealings through interactions with their colleagues, outside agencies and clients. Students develop their personal responsibility and their cultural competency and will reflect on how their contributions to the organization prepare them for a career and a commitment to serving others.

Course Objectives and Learning Outcomes:
1) **Student Learning Objectives.** During their first week on the job, students must submit their learning objectives to the Internship Coordinator, addressing their goals for the following areas in a 1-page double spaced Word document.

   a. **Professional:** How do you expect this internship to help you pursue your career goals?
   
   b. **Personal:** What knowledge or skills (e.g. public speaking, writing, financial literacy, cultural competency, leadership) do you hope to obtain through this internship?
   
   c. **Scholarly:** How do you expect your internship to relate to what you have learned as a student of SLU-Madrid?

2) **Daily Journal.** Each day students will log their activities, as well as their observations and reflections about the functioning of the office (e.g. work-supervisor relations, leadership and management practices, interactions with outside agencies, groups and constituents/clients). Discuss how your work relates to what you have learned as a student of SLU-Madrid. The journal entries must be emailed to the Internship Coordinator every two weeks.

3) **Progress Reports.** You will meet every two weeks with the Internship Coordinator to report the progress, questions, problems and changes taking place in your work and to **discuss your proposed work sample.** At that meeting, you must submit a progress report to your Internship Coordinator. The progress report is to focus on one of two areas:

   **Special Assignments** – you must cover the following in your report:
   
   1. Problem statement
   2. Action plan
   3. Results
   4. Conclusions and recommendations
   5. Learning - How does this compare to what I have learned in my classes at SLU-Madrid?

   **Regular Activities** – you must cover the following points:
   
   1. Description of the processes of different activities within the company
   2. Coordination of the processes
   3. Possible improvements
   4. Learning - How does this compare to what I have learned in my classes at SLU-Madrid?

   The Progress Reports are different from your journal. Your journal serves to keep a track record of what you do on a regular basis; the progress report requires you to analyze a work activity or situation.

4) **Internship Reflection and Portfolio**

   a. **Work Sample:** Students must submit a sample of their work. This will vary from student to student, depending on the nature of the internship. It can be a spreadsheet, a website, a press release, a report, etc., but prior approval of the artifact by the Internship Coordinator is required. Include an explanation of the sample – explain why you created it and the process you followed.

   b. **Reflection:** Students will write a 4-5 page paper (double-spaced) that focuses on the business/political and social role of the organization and their own experiences and analysis. The reflection should respond to the following considerations, among others:
1. Analyze the effectiveness of the institution from both the organization’s point of view and based on your own findings. Who is the organization trying to serve and how? What are the organization’s standards for effectiveness? Does it live up to those standards? In what specific ways are they successful? What obstacles do they face?

2. Student and Personal Development
   i. Describe how the work you did relates to the firm's mission and objectives.
   ii. Analyze the following aspects of your work and development:
      a. The activities you carried out.
      b. The challenges you faced.
      c. The skills you obtained.
      d. The goals you achieved.
      e. How you implemented concepts you learned in class. What theories you saw in practice in the workplace.
      f. How you will apply the key lessons learned as you develop in your career.
      g. The personal or professional areas you hope to improve on as you develop in your career.

5) Updated Resume. Students will integrate their internship experience into a resume that also includes their professional objective(s), educational information, and other relevant experience.

The final written project you turn in will incorporate all written work you completed for the course (Points 1 – 5 above).
